

Blending 21C

SUMMER 2013 TCDSB Innovative Practice Project

With the goal to infuse the integration of technology across all subjects through the framework of 21C Global Competencies, this summer writing project was the foundation for online teacher PD that promoted technology as an “enabler” of deep learning through a global competency lens and the TCDSB Project NeXt framework.

The screenshot shows a Moodle course page for 'Blending 21C'. The page is divided into several sections:
